"I interned for three years before accepting a full-time position. A3 worked with my schedule and made sure I focused on academics. The transition from school to work was fairly easy. I worked a lot my senior year and actually looked more forward to starting full-time than graduation."

—Ryan Lewis | HR Coordinator/Fleet Manager

"My favorite part about working at A3 is the friendly, family-like atmosphere. It's a great environment in which to learn and grow since teamwork is a priority. With fun networking events and a collaborative workplace, I've felt like I was an important part of Team A3 since my internship began."

—Ashley Newton | Staff Accountant

"The transition from being an intern to working full-time was seamless. I was in school in Georgia, but accepted a position in the Raleigh, NC, branch. I learned everything I needed to know during my internship, so I felt confident that I knew what I was doing."

—Morgan Maxwell | Branch Coordinator
