

A3 Communications Earns Spot as No. 2 Fastest Growing Systems Integrator

COLUMBIA, SC (April 8, 2016) — For the fourth consecutive year, A3 Communications, Inc., a leading information technology and security provider, has been named one of America's top 10 fastest growing systems integrators. Climbing the list by four spots, the company earned the No. 2 rank on Security Dealer & Integrator (SD&I) magazine's 2016 Fast50 list.

President Brian Thomas and Vice President of Physical Security Scott Grainger, RCDD, accepted the award on behalf of the 82-person firm during a ceremony at the ISC West 2016 Conference in Las Vegas on April 6. With an unprecedented three-year average growth rate of 43.7 percent, A3 Communications owes their success to new markets, an amazing and dedicated staff, a growing roster of advanced capabilities and products, and the continued loyalty of thousands of clients.

"It feels incredible to receive this award for the fourth time," said Thomas. "At A3, we strive to not only meet expectations, but exceed them, while helping our customers best prepare for the future. Our clients are comforted knowing that they can rely on our industry knowledge and technical expertise to protect and converge their assets now, and for years to come."

The Fast50 list determines America's fastest growing systems integrators based on both percentage growth and revenue growth throughout the previous three years. Each year, SD&I magazine recognizes the chosen participants during the ISC West Conference, the largest physical security event in the nation.

"A3 owes our expanding success to our experienced and certified staff, our committed customers and our industry-leading

partnerships," said Thomas. "Our staff is dedicated to continued education, streamlined solutions, excellent customer service and providing our clients with the most progressive and practical technology in our market. With these values, we look forward to another record-setting year."

"SD&I Fast50 security companies excel in keeping pace with an industry that is continuously growing and evolving," said SD&I Editor-in-Chief Paul Rothman. "A3 Communications is staying on the cutting edge for its clients through its expertise in the convergence of physical and IT security, offering their skill in both areas to service a variety of markets."

For more information about A3 Communication's Fast50 ranking and best practices in technology trends, read SD&I's feature article, On the Fast Track, of the April 2016 issue. To learn more about A3 Communications, visit their website at www.a3communications.com.
