

A3 Communications Announces Atlanta Office Relocation

NORCROSS, GA (February 4, 2014) — A3 Communications, one of the Nation's fastest growing system integrators, announced the relocation of their Atlanta office this week. Formerly in Atlanta's Buckhead district, A3 has relocated to 5000 Peachtree Industrial Boulevard, Suite 155 in Norcross, GA.

"Since our original Atlanta office opening in 2012, we've seen significant growth in both the public and private Georgia markets," said Brian Thomas, President of A3 Communications.

Because of the increase in customers and a significant growth in staff, A3 Communications had no other choice than to move to a larger space. The new office houses plentiful meeting

and warehouse space and is centrally located within an easily accessible industrial office park. Additionally, with simpler access to four major highways, A3 can continue to serve Georgia-based customers quickly and efficiently.

The Norcross office is managed by Thomas. Specializing in IP surveillance, access control, enterprise networking and structured cabling, he has nearly 10 years of experience in the IT industry.

"We look forward to continuing to provide the highest level of client service for information technology- and physical security-based projects from our new Norcross office," said Thomas. "With nearly 25 years in business, we look forward to continuing to build our presence across the Southeast."
